PRIMARY LESSONS (6 MONTHS—5 YEARS)

Aqua Babies: Ages 6 months-2 years

Classes are designed to allow the child to have fun in the water through guided instruction with parents. The child will be exposed to games that use basic movements in the water such as kicking, arm strokes, and breath control. Activities are based on the developmental abilities of the child. Aqua Babies classes are held in the warm-water therapy pool.

3-5 Aqua Shrimps: Ages 3 years to 5 years

This is a parent/child class which helps acquaint the very young child with the joys of water. As the class progresses, the instructor slowly begins working more individually with children on skills to help ready them for preschool classes without parents.

PRESCHOOL LESSONS (3 YEARS-5 YEARS)

Pike —LEVEL 1 This level helps children learn safe pool behavior, adjust to the water, and develop independent movement through stroke and kicking skills. They become comfortable putting their face in the water while doing these skills.

pike

Ray —LEVEL 3 Children at this level review floats on both front and back. They will also kick with a kickboard the length of the pool, improve on over-arm recovery and learn adjustment to deep water.

rays

Eel —LEVEL 2 This advanced beginner level is for children who are comfortable and more independent in the water. They are taught to flutter kick, float and the over-arm recovery stroke.

eel

Starfish —LEVEL 4 Children review and improve previous skills, build endurance, learn to tread water and perform more progressive diving skills. Children swim half-way across the pool doing front and back crawl without assistance by the end of this level.

PROGRESSIVE LESSONS (6 YEARS & UP)

Polliwog-LEVEL 1 This is the beginning level for school age children. By the end of this level, they should know their front and back floats, paddle stroke and over-arm recovery stroke. Students also learn the survival float and treading water. Red Cross Level 1 & 2. Equal to Red Cross Levels 1& 2.

polliwogs

Flying Fish —LEVEL 5 At this advanced level, students work on open medleys consisting of front and back crawl, butterfly and breaststroke. Students tread water and survival float longer to increase endurance. Equal to Red Cross Level 6.

flying fish

Guppy —LEVEL 2 This level continues to build upon basic skills such as mastering the paddle stroke, treading water and the survival float. Students are introduced to the front and back crawl. Equal to Red Cross Level 3.

guppies

Shark —LEVEL 6 The students at this level continue to improve their strokes with starts, turns and dives, they learn the sidestroke and the lifesaving medley. Students learn basic first aid and treatment for shock. Equal to Red Cross Level 6.

shark

Minnow-LEVEL 3 This is the first intermediate level. Children refine their front and back crawl strokes they have learned as their skills become more like those normally used in swimming. They start to learn their breaststroke kick and diving skills. Equal to Red Cross Level 4

minnows

Porpoise Club —LEVEL 7 This is the final level. Students are exposed to a wide range of aquatic experiences. In the class, these advanced swimmers learn new strokes and rescue skills as well as develop leadership skills through volunteer experiences. Must have completed Level 6 to register for this class.

porpoise

Fish-LEVEL 4 Students work to perfect the front crawl, elementary backstroke, back crawl, breaststroke kick and butterfly kick. Equal to Red Cross level 5.
